**The Coromal Element is a versatile caravan with layouts to suit all lifestyles and is designed to get you to your favourite holiday spots, any time of the year.**

Built on a solid welded chassis and coated with a corrosion resistant gal. The Coromal Element comes with 15 inch alloy wheels and quick-release jack legs. The A-frame holds two 9kg gas bottles and an outside mains water tap.

The Esy-Tow™ Tourer suspension provides a predictable and easy towing system, eliminating sideways and axle suspension movement for positive tracking.

The kitchen is packed with standard features such as a built-in 190L 3-way fridge, microwave, stove with grill and 12V recessed range hood.

The stainless steel bowl with drainer includes a standard kitchen mixer tap.

With standard built-in modern cabinetry for maximum storage space, the Element includes 25mm benchtops, soft-close drawers and cupboards.

The upholstered dinette provides a comfortable zone for watching TV and enjoying meals in the comfort of air conditioning.

Large windows allow for plenty of natural light with the inclusion of fly screens and block-out blinds for privacy.

LED lighting is also provided throughout the van providing a modern touch.

Each of the bedroom configurations come with side tables, reading lights and a

memory foam mattress with convenient storage space under the bed.

All models come with a shower, hot water system and toilet as a standard, providing practical and enjoyable space solutions. Most models also include a washing machine.

The Coromal Element comes with handy features such as a retractable awning, annex lights, external power outlet and a TV point. The built-in sound system includes a radio, CD, DVD and USB connectivity providing seamless sound through the internal and external speakers.

The Element range also provides a pre-wired reverse camera provision.

The water gauge allows you to check the water tank level before setting off, very useful when you need to carry drinking water on your trip.

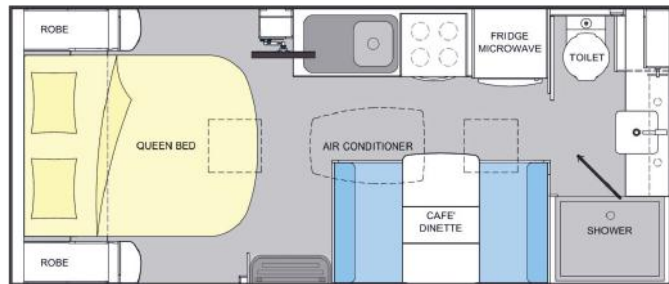

Standard safety features on all models include the stability ESC breaking system, smoke detector, fire extinguisher and non-slip recessed entry step with entry light and easy grip entry handle. ■

# ELEMENT FLOOR PLANS

## Element E552s

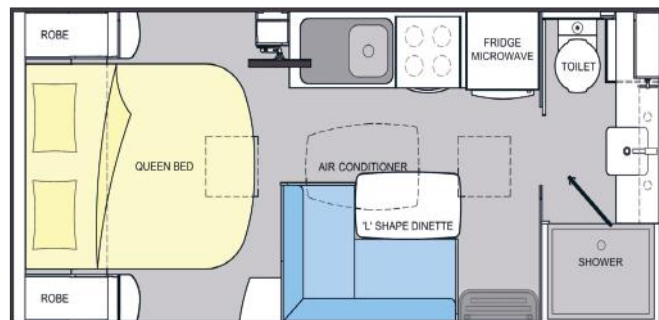

Body Length (mm)	5,500
Overall Length (mm)	7,320
Overall Height – Standard (mm)	2,860
